Location: Noida Sector 62

EDUCATION

University Institute Of Engineering and Technology CSJM University — Kanpur, UP
Bachelor of Technology - Information Technology — *November 2020 - June 2024*

SKILLS SUMMARY

Languages:	HTML, CSS, JavaScript, C++, SQL
Frameworks:	ReactJS, Tailwind CSS, Bootstrap, Express
Libraries:	NodeJS, Material UI (MUI), Redux
Databases:	MongoDB
Tools:	Visual Studio Code, Git, GitHub, NPM, Vite, FileZilla, Hostinger
Other Skills:	RESTful APIs, UI/UX Implementation

EXPERIENCE

Ventures Grow — Noida
Full Stack Developer Intern — *October 2024 – March 2025*

- **Frontend Development**: Developed and optimized responsive web applications using React.js, Tailwind CSS, JavaScript, HTML, and CSS, ensuring seamless user experiences.
- **Performance Optimization**: Improved application load times, optimized code structure, and ensured cross-browser compatibility for better performance.
- **Production-Level Deployment**: Deployed and managed websites on live production servers using FileZilla and Hostinger, ensuring smooth updates and maintenance.
- **Version Control**: Used Git and GitHub for structured version control, efficient team collaboration, and maintaining a clean codebase.

Salesqueen Software Solutions — Remote
Front End Developer (Internship) — *July 2024 - September 2024*

- **Responsive Interface Development**: Built mobile-responsive and user-friendly web interfaces using HTML, CSS, JavaScript, and Bootstrap, ensuring cross-browser compatibility.
- **UI/UX Collaboration**: Collaborated with design teams to implement UI/UX features, enhancing overall user experience.
- **Code Optimization**: Improved web performance by refining code structure and optimizing asset loading times.
- **Debugging & Code Reviews**: Participated in thorough code reviews and debugging sessions, ensuring high-quality and error-free deliverables.

PROJECTS

- **E-Commerce Platform**: **Role:** Full-Stack Developer **Technologies:** MERN Stack, Redux, Stripe, Tailwind CSS
  - Developed a responsive e-commerce platform using the MERN stack with 100% client-side rendering.
  - Implemented secure user authentication, product management, shopping cart functionality, and order tracking.
  - Integrated Stripe payment gateway for secure transactions supporting both COD and online payments.
  - Built a comprehensive admin dashboard for managing products, categories, and orders with role-based access control.
  - Utilized Redux Toolkit for efficient state management and Axios for optimized API calls.
  - Designed a mobile-first UI using Tailwind CSS for seamless responsiveness across devices.
  - Deployed frontend on Vercel and backend on Render with continuous deployment pipelines.

- **Personal Portfolio**: **Role:** Frontend Developer **Technologies:** React.js, Vite, React Router DOM, ESLint, CSS
  - Engineered a responsive website with smooth-scrolling navigation and a dynamic, component-based architecture using React.js and Vite.
  - Implemented essential sections like Hero, Skills, Portfolio, Services, Education, and Contact using React Router DOM.
  - Followed modern UI/UX principles and utilized React 18.3, ESLint, and Vite for efficient development and code quality assurance.
  - Ensured cross-browser compatibility and maintainable, scalable codebase using modular React components.
